## Swiss Gliding Conference (SGC) 2017

18 November 2017, Palais des Congrès, Biel/Bienne

# Factsheet Exhibitors

### The Swiss Gliding Conference

The SGC takes place every year in fall after the end of the gliding season. The conference is the most important yearly meeting point for glider pilots from all over Switzerland. The attendees are informed about current developments in an around gliding as well as about the activities of the Swiss Gliding Association. Prizes are awarded for special sportive achievements. Speeches on a variety of topics serve to broaden horizons and inspire. In the exhibition area, Swiss and foreign exhibitors present newest gliding technology, from whole gliders to avionics to pilot's clothing. Aside from this, the conference is also the ideal place for expert discussions, having a chat with other glider pilots or just enjoying a convivial get-together.

The SGC 2017 is organized by the Gliding Club of Biel in the Palais des Congrès of Biel/Bienne ([www.ctsbiel-bienne.ch/fr](http://www.ctsbiel-bienne.ch/fr) / palais des congrès). Thanks to Biel/Bienne's geographic location on the border between the French and German speaking parts of Switzerland, the well placed location of the Palais in the heart of the city, its famed architecture and sophisticated technical infrastructure, this is truly an ideal place for the SGC.

### Exhibition Area

- Lobby (interior area, just behind main entrance, possibly with gallery)
- Exterior area (forecourt, just outside main entrance, covered by roof)
